Tim,

The answer would be Yes. I suggest a call to understand what level of support they are requesting.

Can you test effluent as well as surface water and drinking water?

Becky B. Allenbach, Acting Deputy Director
Water Protection Division
EPA Region 4

Becky,

We are able and willing but will need senior management approval. I have forwarded your earlier request (Mark sent to me) to my Lab Director, Jennifer Orme-Zavaleta, who sent it on to ORD-IO for consideration.

What is your sense for the number of samples?

Tim Buckley

Folks:

Can you help Region 4 out with this analysis? This stems out of the Research paper regarding the Cape Fear watershed and the presence of PFAS. Seems like our SESD could collect the samples, but cannot easily do the analysis.

Adam for Andy, Myriam Medina-Vera for me.

Tim Buckley is the DD for both of us.

Becky,

We did the analysis in our ORD lab. It is included in a larger method we are validating for surface water, groundwater and wastewater.
